Image report

The `img` elements of the page are shown below categorized by their type of textual alternative. Please review that the images in each group match that group's definition.

Images with textual alternative

The following images have textual alternatives. Please review that the textual alternatives make sense considering the purpose of the image in the context of the page and that phrases like "Image of ..." are avoided.

Note that iconic images that are redundant with text next to them or purely decorative should have `alt=""` instead.

Image	Textual alternative	Location
<i>Not resolvable</i>	Logo of the Sahara Indomitable website.	From line 1, column 529; to line 1, column 813

</iframe> </div> <figcaption> How the UN is
Reforesting the Sahara Desert into a Farmland Oasis - Great Green Wall of
Africa </figcaption> </figure> <div class="columns-md"> <div> <p>
Imagine a living symbol of hope, the largest living structure on the planet,
one that stretches 8,000km across Africa, ushering in a new era of
sustainability and economic growth. </p> <p> Launched in 2007 by the African
Union, the game-changing African-led Great Green Wall initiative aims to
restore the continent's degraded landscapes and transform millions of lives in
the Sahel. </p> <p> This ambitious project is being implemented across 22
African countries and will revitalize thousands of communities across the
continent. It brings together African countries and international partners
under the leadership of the African Union Commission and the Pan-African
Agency of the Great Green Wall. More than USD 14 billion has been raised and
pledged to support this game-changing initiative. </p> <h2>Objectives</h2> <p>
The GGW initiative's ambition is to restore 100 million hectares of currently
degraded land; sequester 250 million tons of carbon and create 10 million
green jobs by 2030. This will help communities living along the Wall to grow:
</p> one of humanity's most precious natural assets: fertile land
 economic opportunities for the world's youngest population
 food security for the millions that go hungry every day
climate resilience in a region where temperatures are rising faster than
anywhere else on Earth a new world wonder spanning 8000km
 </div> <div> <h2>Public awareness campaign</h2> <p> Growing a World
Wonder is UNCCD's campaign to raise awareness about the Great Green Wall. </p>
<p> The campaign aims to inspire a global popular movement to deliver this
urgent African-led dream by 2030. It centers on the core narrative that the
Great Green Wall is a compelling symbol of hope addressing challenges ranging
from climate change to food security, migration to resource-driven conflict.
It is a concrete example of man and nature working together to create a unique
legacy - a new world wonder for the next generation. </p> <p> The campaign
aims to boost global awareness of the initiative in public spheres, policy
debates, as well as media and cultural sectors with a clear view towards
inspiring long-term public and private investment. </p> <p> It has already
reached millions of people through media outreach, events, and civil society
involvement. Among the future highlights is the release of the Great Green
Wall documentary produced in collaboration with the Oscar-nominated filmmaker
Fernando Meirelles and Malian singer Inna Modja. </p> </div> </div> <nav> <ul
